CARI Egg Peda

CARI Egg Peda is a protein-enriched dessert comprising eggs, skim milk powder and sugar etc. Inclusion of eggs not only contributes to its protein content but also enhances its taste and flavour addressing the preferences of the eggetarian consumers. CARI Egg Peda serves as a dependable source of high quality, nutrient-rich product with an extended shelf life suitable for mid-day meal scheme as well as a healthier alternative to the traditional sugary Pedas.

Processing Cost: Approximately Rs. 260/ kg at prevailing prices of raw materials
Shelf life: One week at room temp. and two weeks at refrigerated temp. ($4\pm 10^{\circ}\text{C}$) with vacuum packaging.

Required Equipment/Utensils
