CARI Chicken Meat Bites

Chicken Meat Bites is a ready to eat snack prepared from meat of spent hen which is otherwise considered a waste/by-product of layer industry. Besides spent hen meat, Chicken Meat Bites also contain plant based natural health promoting ingredients (such as fox nut seed powder, moringa leaf powder and oregano, etc.). The product has great market potential with growing consumerism, fast food culture and number of earning hands per family. For establishing a processing unit for the product as a start-up, an investment of approx. Rs. 2.0 lakh is needed.

Processing cost: Rs. 270/kg (approx.) on prevailing prices of raw material.
Shelf-life: 20 days at refrigeration temp. ($4\pm 1^{\circ}\text{C}$) under aerobic packaging condition.

Required Equipment/Utensils

Nutritional Information (% w/w)

Composition	Nutritional Values Per 100g:
Moisture	58-64
Crude Protein	14-18
Fat (Ether Extract)	10-14
Total Ash	2-4
Carbohydrate	4-6
Crude Fiber	0.25-0.50
Calorific Value (kcal/100 g)	226
